

Choose your model.

Choose a new model — and it's yours, exclusively.

Presented by ADLIS Smart Development.

A model made only for you.

Can't find the model you have in mind?
The ADLIS Design Department, together
with the ADLIS AI app, will develop a
customized solution specifically for you.

Innovation and creativity for an exclusive model
— carrying your own brand name.

Brand customization — you will have it exclusively.

01

Made for your needs

Our new models are designed around the specific needs of each client, with unparalleled customization and quality.

02

Ahead of your industry

Choosing a model from our latest line-up gives you cutting-edge technology and design — and keeps you at the forefront of your industry.

03

A real partnership

With an exclusive model you receive more than a product: a partnership that supports your growth and sets you apart from the competition.

How it works — five steps.

01 Select

Choose the model that best matches your company's identity and request a 3D simulation to see how the final design will look. Our design experts work with you to bring your vision to life.

02 Customize

Colour, size, solar panel and technology — every element can be tailored to your needs and to your existing infrastructure, from a bold statement colour to a sleek, modern look.

03 Offer + contract

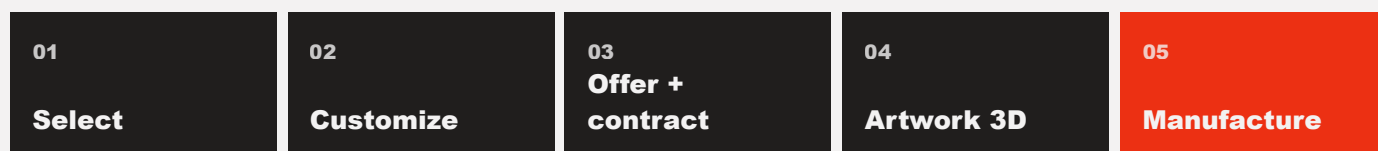

We present an exclusive offer with pricing and a contract for your model. The contract sets out all terms clearly and guarantees quality, timelines and any additional services you need.

04 Artwork 3D

Once the offer is accepted and the Proforma Invoice is signed, our engineers and designers prepare the detailed engineering artwork and specifications.

05 Manufacture

You receive the final artwork with every detail. After your approval, manufacturing starts under strict quality control — with regular progress reports and answers to any question along the way.

Some designs.

From the first sketch to the finished product: a selection of designs we have developed with our clients — each one tailored to a brand, a place and a purpose.
